POCKET GAS™

The **Pocket Gas™** portable gas analyzer is rugged, light weight and includes a durable, detachable display for emissions testing on the road or between multiple repair bays. **Pocket Gas™** meets or exceeds worldwide emissions testing standards and offers many unique features not found in other gas analyzer systems. Features include:

- Measures HC, CO, CO₂, O₂, NO_x, air-fuel ratio and lambda
- Calculates and displays est. grams per mile for IM 240
- Full Color meters and line graphing
- Meets or exceeds: BAR97, BAR90, ASM, OIML and Class 1
- Includes EPA pass/fail specifications
- Integrated data recording for viewing and printing
- Emissions test results are linked to customer and vehicle database
- Includes English, Spanish and French language translation
- Scheduling, task list, Pocket Word, Pocket Excel and more
- Special probe included to help find fuel system and EVAP leaks

Pocket Gas

POCKET SMOKE™

Set a new standard for ease of use and performance in a portable **J1667** or **MOT** Diesel Smoke Meter. The software allows units to be displayed in Density (m^{-1}), K, or Percent opacity at different path lengths. Both Full and partial flow units are available.

- Measures diesel smoke in % for J1667. Both HSU (%) and K (density) settings available.
- Meets or exceeds US SAE J1667 standards
- Color touch screen hand held display with advanced diagnostics
- Manual modes for diagnostics and complete configurable test sequence for standardized testing.
- Includes long lasting battery (J1667 only)
- Integrated data recording for viewing and printing
- Linked customer and vehicle data storage
- Wireless capability available
